SINCE 1840

## What's New for 2021 - 2022

The latest Farlows country clothing collection continues our commitment to producing the finest British sporting fieldwear. This season you'll find some exciting, stylish and innovative garments and, as always, our collection is designed with equal importance on achieving high-level performance in the field.

This season we've brought two new tweed patterns to the collection, expanded our range of ladies' outerwear and we have begun the introduction of working dog leather accessories and beds. This means we now not only kit out our customers from head to toe, but their canine companions too.

Supporting traditional British craftspeople and garment manufacturers is in our DNA, and we continue to work with only the best workshops and producers. We are proud that the majority of our garments are manufactured in Britain with low ecological footprints to help fulfil our sustainability mission.

# Menswear

## Our New Saxony Claret Check Tweed

This season we have developed an exciting new men's tweed to use in our core collection pieces. Made exclusively for Farlows in the Scottish Borders, this traditional Saxony cloth is robust and hardwearing. Made from a twill weave with a hard-pressed finish and Teflon coating to provide the wearer with outstanding performance and weather protection whilst remaining true to traditional styling.

## Litchfield Coat

The Farlows Litchfield Coat has become a country classic and the latest version, created in our new Saxony claret check tweed, continues this excellent line of coats. The golden/olive tones of the ground of the tweed, along with a bold but subtly sophisticated overcheck, make this coat at home in many shooting situations, from smart estate shoots to smaller walked-up days.

**Price £695.00**

## Tweed Breeks

Our new Saxony claret tweed is also available in our men's breeks. Cut a little longer than conventional breek patterns to allow for movement, the Farlows breek is exceptionally comfortable, practical and durable. A good pair of breeks plays an important role in your comfort level on a shoot day and you'll be pleased to hear that our pattern has been extensively tried and tested in the field.

**Price £215.00**

# Moorland Shooting Vest

We have also brought the new Saxony tweed to our popular Moorland Shooting Vest, pictured here in our green Loden fabric. With tonal Alcantara trim on the shoulder patches and cartridge pocket edges, this garment is durable, practical and stylish.

**Price £395.00**

# Thornham Super Dry Wax Shooter

The Thornham is designed as a stylish lightweight shooting jacket that is incredibly versatile across the countryman's calendar.

We have selected a Super Dry Wax cotton for the Thornham, giving the wearer exceptional protection from the elements. Super Dry Wax cotton does exactly what it says on the tin, it's a fully waxed cotton that, unlike traditional waxed cotton, is dry to the touch but affords the same performance as its traditional counterpart.

It's the finer details of the Thornham that really finish off the coat and make it a firm favourite. Details include corduroy to the turn down of the collar, a button-back storm flap for foul weather, large cartridge pockets that are capable of holding enough cartridges for a busy drive, open shirt cuff and reverse welt hand warmer pockets.

**Price £695.00**

# Rudham Nehru Vest

New in the collection this year is our Rudham Nehru Vest. Designed for both town and country wear, smart and casual, this is a must-have wardrobe piece. Made in our red/gold windowpane tweed cloth, this vest features some key design features such as patch pockets, back vents and Alcantara trim on the inside of the collar. With a slightly shorter overall length, this piece has a more casual feel than our other sporting specific vests.

**Price £355.00**

# Ladieswear

## Our New Bronze Herringbone Tweed

New for our ladieswear range this season we have developed our Bronze Herringbone tweed. Using a bronze/golden ground with tones of olive, we have created a stylish, luxurious and functional ladies' tweed. This tweed is in a herringbone construction to provide aesthetic depth as well practical durability. As with our new men's tweed it is perfectly at home in so many country situations, from estate shoots to grouse moors and everything in between.

Our gorgeous new ladies' tweed is available in our Burghley Fieldcoat, Tweed Brecks, and Dartmoor Shooting Vest.

# Cotswold Dry Wax Coat

The Farlows Cotswold coat has been a favourite in our collection for many years. This new addition, made up in our Super Dry Wax cotton fabric, gives this coat a whole new feel and purpose. This coat has a very flattering cut whilst also keeping all the key performance characteristics of a modern shooting coat. Features include large cartridge pockets, soft lined hand warmer pockets, internal pockets for your small personal items and a superb two-way zip down the front of the coat.

The Super Dry Wax fabric we have used is incredibly hardy. It's impregnated with wax, which makes it dry to the touch but keeps all the same waterproofing properties as traditional waxed cotton. This coat also features a waterproof membrane drop liner, to ensure the wearer is completely dry, no matter how bad the weather is. The great thing about this fabric, is that it really does get better with age.

**Price £695.00**

# Dartmoor Shooting Vest

The Farlows Dartmoor Shooting Vest, this year in our new Bronze Herringbone tweed, is a fantastic option for milder days out in the field. It features tonal Alcantara shoulder patches and cartridge pocket trim for classic style and durability. An elegant and practical shooting vest that can be worn in a variety of ways.

**Price £395.00**
